

THE EYE OF LIES

This eye senses illusions like second nature. When peering into an illusion, you gain a +2 Item Bonus to Perception checks and Willpower saves against illusions.

Detect Illusion ♦♦♦ [Concentrate]: Once a day, sensing something that may be an illusion, you may confirm your hypothesis with certainty. If you catch an illusion this way, you gain Advantage on your Perception Check to disbelieve it instead of the +2 Item Bonus.

This is a Fortune effect.
